CUBEX Silver

Compact Business Mini PC

The CUBEX Silver by Chip PC Technologies

is a modern and compact Mini PC designed for professional office environments, cloud computing, and daily business applications.

Powered by the Intel® Core™ i3 12th Generation processor, the CUBEX Silver delivers excellent performance while maintaining low power consumption and silent operation in an ultra-compact design.

Equipped with 12GB LPDDR5 memory and a fast 256GB NVMe SSD, the system ensures smooth multitasking, fast boot times, and reliable productivity for professional users.

The CUBEX Silver supports up to three displays through dual HDMI 2.1 outputs and USB4 Type-C connectivity, offering an ideal solution for multitasking workstations, trading desks, digital signage, and modern office setups.

With integrated 2.5G Ethernet, TPM 2.0 security, Wi-Fi and Bluetooth expansion support, and compatibility with both Windows 11 and Linux, the CUBEX Silver is perfectly adapted for enterprise deployments and advanced business infrastructures.

Its elegant compact chassis makes it easy to integrate into any workspace while providing the reliability and flexibility expected from professional computing solutions.
